## INTRODUCTION

The *Emergency Management Act, R.S.O., 1990, Ch. E.9* defines an emergency as:

*A situation or impending situation caused by forces of nature, an accident or an intentional act that constitutes a danger of major proportions to life and property [Section 1].*

They therefore affect public safety; meaning the health, welfare and property, as well as the environment and economic health of the Township of Essa.

*The head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such order as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area [Section 4(1)].*

The population of the Township of Essa is 18,505 residents (Statistics Canada 2011 census population).

In order to protect residents, businesses and visitors, the Township of Essa requires a coordinated emergency response by a number of agencies under the direction of the Community Control Group. These are distinct arrangement and procedures from the normal, day-to-day operations carried out by emergency services.

The Township of Essa Emergency Management Committee developed this emergency response plan. Every official, municipal department and agency must be prepared to carry out assigned responsibilities in an emergency. The response plan has been prepared to provide key officials, agencies and departments of the Township of Essa important emergency response information related to:

- Arrangements, services and equipment; and
- Roles and responsibilities during an emergency.

In addition, it is important that our residents, businesses, and visitors be aware of its provisions. Copies of the Township of Essa Emergency Response Plan may be viewed at the Township Administration Centre or on the [Township of Essa website](#).

## AIM AND PURPOSE

The aim of the Township of Essa Emergency Management program is to incorporate the four principals of emergency management; mitigation, preparedness, response and recovery in an effort to create a disaster resilient community.

The plan enables a centralized controlled and coordinated response to emergencies in the Township of Essa, and complies with the legislated requirements of the Emergency Management Act and was adopted by By-Law of the Corporation of the Township of Essa.

## AUTHORITY

## EMERGENCY INFORMATION PLAN

This area, if established, will be staffed as required by the community spokesperson or emergency information officer.
